INFORMATION BROCHURE

NCERT: THE PREMIER BODY IN SCHOOL EDUCATION

The National Council of Educational Research and Training (NCERT) was established for providing academic support in improving the quality of school education in India. The focus of the Council is reflected in its emblem. The three intertwined swans symbolise the integration of three aspects of the work of the NCERT, namely, Research and Development, Training, and Extension. All these functions are tuned to achieve the main objective of improving the quality of school education. The activities taken up by the NCERT include development of curriculum, textbooks and instructional materials, training of the key functionaries and research in various dimensions of school education. The NCERT functions through its eight constituent units, viz. (a) National Institute of Education (NIE), (b) Central Institute of Educational Technology (CIET) - both located at New Delhi, (c) Pandit Sunderlal Sharma Central Institute of Vocational Education (PSSCIVE), Bhopal and five Regional Institutes of Education (RIEs) at Ajmer, Bhopal, Bhubaneswar, Mysore and Shillong. This National Institution draws on the expertise of as many as 600 members of the faculty located in the network of its constituent units.

NCERT, through the Department of Educational Psychology and Foundations of Education (DEPFE), has been training the in-service school teachers, teacher educators, school administrators as well as untrained guidance personnel through its diploma courses for many years. In order to make the course accessible to larger numbers, this course has now been redesigned with components of both distance as well as face-to-face modes. The course is developed and offered by DEPFE, NIE, New Delhi and Regional Institutes of Education of NCERT at Ajmer, Bhopal, Bhubaneswar, Mysore and Shillong.

OBJECTIVE

COURSE CONTENT

Theory: The course consists of core components in guidance and counselling processes and procedures, major theories of human adjustment and career development, and their application in counselling, psychological assessment and appraisal, and use of career information in guidance and counselling practices. The content also includes counselling for special groups of students, crisis situations and other issues arising from multicultural forces, globalisation, industrialisation etc. that have implications for guidance and counselling practices.

Practical Work: The course includes intensive training in practical work integrated with the theory components which is later conducted and supervised in schools. Enrichment lectures,
